

Conditional Use Permit Applicant's Guide

PURPOSE

The Conditional Use Permit (also known as a "C.U.P.") is a permit issued to a landowner by the Planning Commission allowing a particular use or activity not allowed as a matter of right within a zoning district. The Conditional Use Permit process is designed to give the Planning Commission an opportunity to consider the peculiar characteristics of the proposed use relative to placement at specific locations and to insure proper integration with other existing or permitted uses in the same zone or zones.

In granting the permit, certain safeguards to protect the health, safety, and general welfare may be required as conditions of approval. In addition, conditions of approval may be required to promote orderly development, sustainability, and the conservation of property values and the character of the zone or area in which the use is requested.

Such conditions may include, but are not limited to:

Installation of masonry trash enclosures

Installation of masonry block wall along property lines for screening purposes

Screening of mechanical equipment, whether on rooftop, ground level or anywhere on the building structure, which is visible from public street or adjacent property.

Installation or upgrading of landscaping which conforms to setback and Municipal Code requirements

Installation of signs which conform to Municipal Code requirements

Resurfacing and/or landscaping of parking areas

Installation of appropriate lighting for parking areas

Abatement of any substandard conditions, property maintenance violations, or Municipal Code violations, such as:

- Removal of outside storage
- Painting of buildings
- Repair of walls, fences, etc.

In granting the permit, the Planning Commission has the authority to grant, conditionally grant, or deny a Conditional Use Permit application based on the evidence submitted by the applicant and the Commission's own study of the particular request.

FINDINGS

The applicant for a Conditional Use Permit shall substantiate to the satisfaction of the Planning Commission the following facts:

- A) That the requested use at the location proposed will not:
 - (1) Adversely affect the health, peace, safety, or welfare of persons residing or working in the surrounding area;
 - (2) Be materially detrimental to the use, enjoyment, or valuation of property of other persons located in the vicinity of the site; nor
 - (3) Jeopardize, endanger, or otherwise constitute a menace to the public health, safety, or general welfare; and
- B) That the proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping, and other development features prescribed in this chapter, or as is otherwise required in order to integrate such use with the uses in the surrounding area; and
- C) That the proposed site is adequately served:
 - (1) By highways or streets of sufficient width and improved as necessary to carry the kind and quantity of traffic such use would generate, and
 - (2) By other public or private service facilities as are required; and
- D) That such use is necessary or desirable for the development of the community, is essentially in harmony with the various elements of the Paramount General Plan, and is not detrimental to existing use or to uses specifically permitted in the zone in which the proposed use is located.
